Re: Notice of Violation Docket # 5137-13

Dear Ms. Zivcovich:

Thank you for the submittal of the letter dated December 11, 2013, Supplemental Environmental Project (SEP) Completion Report. We are in receipt of the information for the change out of 38 high-bleed controllers to low-bleed controllers completed November 26, 2013. Itemized costs and receipts for the project were also reviewed and found to fulfill the requirements contained within the Settlement Agreement. The Division is satisfied that the requirements stipulated within the agreement have been completed. The file will be annotated to show that the requirements have been fulfilled. We appreciate the opportunity to work in a collaborative capacity with Shell Western Exploration & Production to resolve compliance concerns.

If you should have any questions, please feel free to contact Fred DiLella at (307) 777-3774.

Sincerely,

Steven A. Dietrich
