PERMIT EXPIRATION
CHUGWATER FLATS ENERGY PROJECT DEQ/ISC 09-04

Dear Dr. Laviolette:

As you are aware, the Industrial Siting Council issued a permit for the Chugwater Flats Energy Project on April 22, 2010. Condition #2 of the permit states: "[c]onstruction must commence within three years following the date of the award of this permit."

The Industrial Siting Division has not received any information which would lead it to believe that construction has begun on the project. Therefore, the Division has concluded that the permit has expired and is no longer in effect.

If we can be of future assistance, please call me (307) 777-7192.

Sincerely,

Luke J. Esch
Administrator
Industrial Siting Division
