Denver, CO 80202

Re: Notice of Violation Docket # 5011-12

Dear Mr. Petty:

Thank you for your submittal of information pertaining to the YU Bench Compressor Station via email dated January 29, 2013. We are in receipt of the information that the two designated SEP projects to include installation of both the electrically powered unit at the dehydrator and the compressed air system have been completed at the YU Bench Compressor Station. Itemized costs and receipts specific to this installation were also reviewed and found to fulfill the offset requirement contained within the Settlement Agreement. As the other elements of the Settlement Agreement were completed prior to your January 29, 2013, submittal and the information provided was found to fulfill the remaining requirements of the Settlement Agreement, the Division is satisfied that the requirements stipulated within the Settlement Agreement have been completed. The file will be annotated to show that the requirements have been fulfilled. We appreciate the opportunity to work in a collaborative capacity with Saga Petroleum to resolve compliance concerns.

If you should have any questions, please feel free to contact Karen Godman at (307) 777-8601.

Sincerely,

Steven A. Dietrich
