PUBLIC NOTICE
STATE OF WYOMING
Department of Environmental Quality/Division of Air Quality
Air Pollution Source
Draft Operating Permit

Chapter 6, Section 3 (d)(ix) of the Wyoming Air Quality Standards and Regulations provides, prior to final determination on an application for a Chapter 6, Section 3 operating permit, opportunity be given for public comment and public hearing on the information submitted by the owner or operator and on the draft permit. The regulation further requires such information be made available to the public and the public be allowed a period of thirty (30) days to submit comments. A public hearing will be conducted only if, in the opinion of the Administrator, sufficient interest is generated or if an aggrieved party requests a hearing within the 30 day public comment period.

Chapter 6, Section 3 does not impose new substantive requirements on an air pollution source but does require sources subject to the Operating Permit Program obtain a renewable operating permit that clarifies in a single document which air quality requirements apply to the source and provides methods for assessing the source's compliance with those requirements.

Notice is hereby given the State of Wyoming, Department of Environmental Quality, Division of Air Quality, proposes to issue a modified Chapter 6, Section 3 operating permit to the following applicant for the Douglas Gas Plant in Converse County, Wyoming:

Tallgrass Midstream, LLC
370 Van Gordon Street
Lakewood, CO 80228

The Douglas Gas Plant is located in Sections 34 and 35, Township 33N, Range 71W, Converse County, Wyoming (252 Highway 59, Douglas, Wyoming). The facility is a natural gas processing plant. The pollutants of primary concern from this facility are Nitrogen Oxides (NO_x), Carbon Monoxide (CO), Volatile Organic Compounds (VOCs), and Hazardous Air Pollutants (HAPs).

This permit is being modified to incorporate requirements from 40 CFR 60

Subpart OOOO for Crude Oil and Natural Gas Production, Transmission, and Distribution; CFR 63 Subpart HH for Oil and Natural Gas Production facilities; CFR 63 Subpart ZZZZ for Stationary Reciprocating Internal Combustion Engines; 40 CFR 63 Subpart DDDDD for Boilers and Process Heaters; and from recently authorized construction permits. Only the modified portions of the permit are open for public comment.

The Division's Operating Permit contact is Lori Bocchino, Operating Permit Program Manager, Division of Air Quality, Department of Environmental Quality, 122 West 25th Street, Cheyenne, Wyoming 82002 at (307) 777-3784. Interested parties may examine the draft permit, the application, all relevant supporting materials and all other materials related to the permit decision at the Division's Cheyenne office or the Division's Casper Field Office located at 152 N. Durbin Street, Suite 100, Casper, Wyoming, 82601; (307) 473-3455. Arrangements can be made with the Division to copy relevant materials, if necessary (a fee will be assessed for reproductions). In accordance with the Americans with Disabilities Act, special assistance or alternate formats will be made available upon request for individuals with disabilities. Additionally, a complete copy of the draft operating permit and the associated statement of basis for the facility can be found on the Division's website at: http://deq.state.wy.us/aqd/TitleVPermitsOutPublicComment.asp

Public comments must be received by no later than 5:00 p.m. local time (Mountain) on October 16, 2015. Written public comments or requests for a hearing should be directed to the Administrator, Division of Air Quality, Department of Environmental Quality, 122 West 25th Street, Cheyenne, Wyoming 82002. The FAX number for the Division is (307)777-6937. Comments submitted by email will not be included in the public record. All written comments received by 5:00 p.m. local time (Mountain) on October 16, 2015 will be considered in arriving at a final determination on the issuance of this permit and will be retained on file in the Cheyenne office.
