RE: Notice of Violation

Dear Mr. Seidel,

Enclosed you will find a Notice of Violation (NOV) issued to Cosner Construction Company by the Department of Environmental Quality, Air Quality Division, for the failure to comply with Chapter 3, Section 8 of the Wyoming Air Quality Standards and Regulations in the renovation of the former Copy Shop located at 1003 Coffeen Avenue, Sheridan, Wyoming.

As the Department and this Division consider the failure to comply with asbestos requirements to be a serious matter, I am considering recommending that the Department refer this violation to the State Attorney General's office requesting a suit be filed in District Court to recover appropriate penalties.

If you would like to discuss settlement of this issue prior to referral to the Attorney General's office, please contact Ms. Karen Godman, Air Quality Compliance Program Principal, at 307-777-8601 no later than ten (10) days after receipt of this letter.

Should you have any questions regarding this matter, please feel free to contact me or Ms. Karen Godman.

Sincerely,

Steven A. Dietrich  
Administrator  
Air Quality Division

**NOTICE IS HEREBY GIVEN THAT:**

1) The Department of Environmental Quality, Division of Air Quality has found Cosner Construction Company to be in violation of Chapter 3, Section 8 of the Wyoming Air Quality Standards and Regulations as a result of the renovation of the former Copy Shop located at 1003 Coffeen Avenue, Sheridan, Wyoming.

2) Chapter 3, Section 8 of the Wyoming Air Quality Standards and Regulations establishes asbestos emission standards for demolition, renovation, manufacturing, spraying and fabricating that apply to owners and operators of facilities where renovation/demolition activities are taking place.

3) On March 10, 2011, Ms. Linda Dewitt, Asbestos Program Coordinator, conducted an inspection of the renovation of the former Copy Shop located at 1003 Coffeen Avenue, Sheridan, Wyoming. While conducting the inspection, Ms. Dewitt determined that the renovation included suspect materials to include wallboard system walls and 2' X 4' drop-in ceiling tile. Ms. Dewitt requested a copy of the asbestos inspection from Mr. Seidel and was told none had been conducted.

4) Chapter 3, Section 8(i)(i) of the Wyoming Air Quality Standards and Regulations states, "To determine which requirements of paragraphs (i)(i), (i)(ii), and (i)(iii) apply to the owner or operator of a demolition or renovation activity and prior to the commencement of the demolition or renovation, thoroughly inspect the affected facility or part of the facility where the demolition or renovation operation will occur for the presence of asbestos, including Category I and Category II non friable ACM." Based on the investigation conducted by Ms. Dewitt, an inspection had not been conducted at the site prior to the renovation.

8) This notice is being sent to you pursuant to W.S. 35-11-701(c), which requires that, in any case of the failure to correct or remedy an alleged violation, the Director of the Department of Environmental Quality shall cause a written notice to be issued and served upon the person alleged to be responsible.
