Re: Notice of Violation Docket # 5085-12

Dear Ms. McKee:

Thank you for the submittal of the letter dated July 9, 2013, Stud Horse Butte 15-23 SEP Completion Report. We are in receipt of the information for the removal of the 2-door separator/dehy unit, installation of a 4MM combo unit and a 30" VOC combustor to the condensate tanks, and tie-in of the condensate tanks to the combustor completed March 30, 2013. Itemized costs and receipts for the project were also reviewed and found to fulfill the requirements contained within the Settlement Agreement to include the permit modification for this facility. The Division is satisfied that the requirements stipulated within the settlement agreement have been completed. The file will be annotated to show that the requirements have been fulfilled. We appreciate the opportunity to work in a collaborative capacity with Ultra Resources, Inc. to resolve compliance concerns.

If you should have any questions, please feel free to contact Karen Godman at (307) 777-8601.

Sincerely,

Steven A. Dietrich
Administrator
Air Quality Division
