

**BEFORE THE WYOMING INDUSTRIAL SITING COUNCIL  
STATE OF WYOMING**

IN THE MATTER OF THE INDUSTRIAL SITING PERMIT )  
OF PIONEER WIND PARKS, WASATCH WIND ) DOCKET DEQ/ISC 10-02  
INTERMOUNTAIN, LLC )

---

**ORDER**

---

WHEREAS, Wasatch Wind Intermountain, LLC (Wasatch Wind) has a permit in good standing to construct its wind parks in Converse County, and

WHEREAS, Wasatch Wind petitioned the Council on September 9, 2013 for a change in the model of the wind turbine used, and

WHEREAS, Wyoming Statute § 35-12-106(c) authorizes the Council to allow the amendment of a permit, and

WHEREAS, On October 1, 2013, Wasatch Wind provided evidence that the vendor was no longer making the wind turbine model previously approved. Further, the vendor had a more efficient model available, which the Company requested approval from the Council to utilize. The Company provided a professional consultant's review of the proposed turbine model that stated there would be minimal change to the social and economic effects of the project. In addition, the Company consulted TRC Environmental Corporation for a professional evaluation of the visual impacts. The consultant provided a professional opinion that the change in turbine model would be barely noticeable. The Company demonstrated that the requested amendment to the permit would not significantly add to adverse environmental, social, or economic impact in the impacted area and that the requested amendment was otherwise justified under the terms of Wyoming Statute 35-12-106(c).

NOW, THEREFORE, the Industrial Siting Council grants Wasatch Wind's petition to amend its permit to reflect the change of the wind turbine model used for the project.

So ordered this 1st day of October 2013.
