PERMIT EXPIRATION
RENO JUNCTION WIND ENERGY PROJECT DEQ/ISC 09-02

Dear Mr. Littlefield:

The Industrial Siting Council issued a permit for the Reno Junction Wind Energy Project on August 17, 2010. Condition #2 of the permit states: "Construction must commence within three years following the date of the award of this permit."

The Industrial Siting Division has not received any information that would lead it to believe that construction has begun on the project. Therefore, the Division has concluded that the permit has expired and is no longer in effect.

If we can be of further assistance, please call me at (307) 777-7192.

Sincerely,

Luke Esch
Administrator
Industrial Siting Division

CC: John Sundahl, Attorney for the Project
Charlie Anderson, Attorney for the City of Gillette
Jeani Stone, Attorney for Campbell County
Jeremiah Williamson, Attorney for the Industrial Siting Division
