Gillette, WY 82717

**RE: Notice of Compliance for Notice of Violation, Docket No. 4118-07, Limited Mining Operation (LMO) 1180ET**

Dear Mr. Melgaard:

This letter serves as the Land Quality Division Notice of Compliance for NOV Docket # 4118-07. All fines and additional bond requirements have been paid to the Department of Environmental Quality. A compliance assessment performed on November 29, 2007 shows that mining has not progressed at this location and materials pushed over the southern edge of the pit have been pulled back onto the pit disturbance. A protective berm along the southern edge of the pit has been constructed to reduce runoff erosion potential until final contouring and seeding are completed in the spring of 2008.

All compliance issues related to the NOV have been satisfied.

Should you have any questions regarding this letter, please contact David Schellinger at (307) 763-9337.

Sincerely,

Donald R. McKenzie  
Administrator  
DEQ Land Quality Division
