**RE: Termination Letter, Notice of Violation, Docket No. 4459-09
2M Construction, Inc.**

Dear Mr. Cunningham:

The purpose of this letter is to formally terminate the Notice of Violation that was issued on March 13, 2009. The penalty amount was received by the Department on April 16, 2009 (receipt #0438); thus, honoring the penalty assessment portion of the Settlement Agreement (i.e., Item 3). A site inspection was conducted on this date after you notified me that seeding of 4.5 acres was recently completed as required under the Settlement Agreement, Item 4. Also, thank you for faxing copies of the seed bag labels which verifies that the seed mixture used was as required under the Settlement Agreement, Item 4. Grading and topsoil replacement were previously accomplished.

In closing, with this letter, I am terminating the Notice of Violation associated with Docket 4459-09 as 2M Construction, Inc., has honored all of its obligations under the Settlement Agreement. If you have any questions please do not hesitate to contact me.

Sincerely,

Steve Platt
