RE: LMO 1051ET, Termination of Notice of Violation, Docket No. 4584-09

Dear Mr. and Mrs. Jones,

On October 21, 2011, Mark Moxley, Wyoming Department of Environmental Quality/Land Quality Division (WDEQ/LQD) District 2 Supervisor, and I met with Mark Jones to discuss the Notice of Violation referenced above. Mr. Jones showed us how he uses the road extending into and through the pit access to ranch facilities, the ranch gravel stockpiles, and the irrigation ditch. Mr. Jones stated that he wanted to leave a permanent access at that location and felt it should not require bonding.

It was agreed that the road could be left in place with a total width of 30 feet. This road will not require bonding. The location of this road is shown on the attached map. The foot print of the road is 0.67acres. Therefore, the disturbance of the pit will be reduced from 10.8 acres to 10.1 acres, which we will accept as the disturbed footprint of the pit. No further lateral disturbance is allowed. Additional bonding is thus not required.

In closing, the WDEQ/LQD is terminating the Notice of Violation, Docket No. 4584-09.

If you have any questions, please feel free to contact me at the Lander Office (307) 332-3047.

Respectfully,

Tanya R. King, P.E.
