Green River, WY

RE: Termination of Notice of Violation, Docket No. 5073-12, Limited Mining Operation Application TFN 5 1/292

Dear Mr. Pallesen:

This letter serves as Land Quality Divisions' (LQD) termination of the Notice of Violation referenced above. The NOV is the result of failure to post the required \$10,000.00 bond for your mining operation. LQD appreciates your prompt response and accepted Bond No. 1088346 through the Lexon Insurance Company in the amount of \$10,000.

If you should have any questions regarding this letter, please contact me at (307) 332-3047. Thank you for your cooperation in this matter.

Respectfully,

Mila Ready
Natural Resource Analyst
