

WYOMING DEPARTMENT OF ENVIRONMENTAL QUALITY
Land Quality Division

REQUIRED ANNUAL REPORT INFORMATION FOR SMALL MINING PERMITS
(Please use additional sheets of necessary)

1. Name of Permittee: _____
Name of Operator, if different from Permittee: _____
Mailing Address of Permittee: _____

Telephone Number of Permittee: _____
Surface Landowner: _____
2. Permit Number: _____ County: _____
3. Time period covered by this report: From ____ / ____ / ____ through ____ / ____ / ____
The report period begins the day of permit approval and ends twelve (12) months after. Each report period lasts one year, beginning on the anniversary of permit approval.
4. Topsoil
 - A. Volume of topsoil removed during the past 12 months: _____ cubic yards.
 - B. Volume of topsoil currently stockpiled, including the past 12 months: _____ cubic yards.
5. Overburden
 - A. Volume of overburden removed during the past 12 months: _____ cubic yards.
 - B. Volume of overburden currently stockpiled, including the past 12 months: _____ cubic yards.
6. Mineral
 - A. Quantity of mineral which was mined during the last 12 months: _____ cubic yards or _____ tons
7. Acres Disturbed
 - A. Acres newly disturbed in the past 12 months: _____ acres.
 - B. Acres disturbed since mining began, including last 12 months: _____ acres.
 - C. Additional acres projected to be disturbed during the next 12 months: _____ acres.
8. Reclamation
 - A. Number of acres that were reclaimed (backfilled, graded, topsoiled & seeded) during the last 12 months: _____
 - B. Acres reclaimed (backfilled, graded, topsoiled & seeded) since mining began (including the areas reclaimed during the time period covered by this report): _____
 1. Average thickness of topsoil applied to lands listed above: _____
 2. Date(s) of seeding: _____ 3. Seeding rate in pounds/acre: _____
 4. Plant species seeded (seed mixture): _____

 5. Seed applied by the following method(s) (drill or broadcast): _____

6. Type of mulch applied: _____ 7. Rate of mulch applied in pounds/acre: _____

8. Mulch was applied by the following method: _____

9. Describe any facilities (e.g., roads, ponds, buildings, ditches, disposal sites, etc.) constructed during the past 12 months: _____

10. Describe water usage and/or water discharge, including quantities. The WDEQ – Water Quality Division NPDES Permit Number, if applicable, is: _____

11. Future Mining

Please give a brief description of your proposed operations for the next 12 months (including the number of acres to be mined and the number of acres to be reclaimed): _____

12. Please attach a map or maps clearly showing the following information:

A. Permit area boundary

B. Title block that includes the

1. Name and Address of Permittee (see No. 1 above)
2. Permit Number and the County the permit is located (see No. 2 above)
3. Location of mine by section, township, and range
4. Annual Report Time Period (see No. 3 above)

C. North Arrow, scale, contour interval, date

D. Legend showing and identifying all map symbols

E. Location and area of the newly disturbed lands (see No. 7.A. above)

F. Location and area of all disturbed lands since mining began (see No. 7.B. above)

G. Location and area of lands which were backfilled, graded, topsoiled, and seeded (see No. 8.A. above) during the past 12 months.

H. Location and area of all reclaimed lands (see No. 8.B. above) with the year in which each area was reclaimed (seeded) indicated for each area.

I. Location of newly constructed facilities (see No. 9 above)

An enlargement of a portion of a USGS 7.5 minute topographic map with a scale of 1 inch equals 200 to 400 feet is preferred. If another type of map is used, section corners and section lines must be included on the map.

13. Reclamation Bond Estimate

An itemized cost estimate for reclamation of the permit is required by W.S. '35-11-417(c)(ii). The cost estimate should be itemized to reflect the costs of reclaiming all affected lands and those lands to be newly affected during the next report period. Bonding items include (but are not limited to) removal of buildings and roads, backfilling of pits, spreading of topsoil, and seeding of affected lands in accordance with the approved reclamation plan. All affected lands require bonding until bond release is approved by the LQD. Please include the existing disturbance and the disturbance that is planned for the next report period.

Please attach this information to this report and submit to the appropriate District Office.
