

## REQUEST FOR PROFESSIONAL SERVICES PS0670

The Wyoming Department of Environmental Quality (WDEQ) Solid and Hazardous Waste Division Orphan Site Remediation Program (SHWD/OSRP) is requesting Professional Engineering Services submissions for an environmental investigation project in Laramie, Albany County, Wyoming. Services will include conducting a Phase I Environmental Site Assessment, and based upon results of the Phase I, a Phase II investigation. The Phase II may include collecting subsurface soil samples, groundwater monitoring well installation, soil vapor point installation, traffic control, public outreach, support to the OSRP at a public meeting, and other associated activities.

Firms wishing to be considered for the project should send a letter of Interest and a Statement of Qualifications, including a U.S. Government Standard Form 254/255 or Standard Form 330 Parts I & II to:

Wyoming Department of Environmental Quality  
Solid and Hazardous Waste Division  
122 West 25<sup>th</sup> Street  
Cheyenne, Wyoming 82002  
307-777-2948  
Contact: Cindi Martinez

In order to be considered, qualified statements should arrive at the above address by close of business January 3, 2014. Selection will be made in accordance with Wyoming Law (W.S. 9-2-1027 through 9-2-1033) and Federal Regulations. Firms must also comply with W.S. 33-29-114 through 33-29-139 and W.S. 33-4-101 through 33-4-117.

Criteria to be used in selection:

- A. Availability and qualifications of key personnel relative to this project
- B. Personnel and resources available to complete the work on an accelerated schedule.
- C. Location of firm and key personnel in relation to project location
- D. Volume of work previously awarded to the firm by the State of Wyoming WDEQ VR/HW/BF/OS programs with the objective to equitably distribute contracts among qualified engineering firms, including minority-owned firms and firms that have not had prior State of Wyoming contracts
- E. Experience with Phase I and Phase II site assessments; experience in designing and implementing groundwater and soil vapor investigation projects using state-of-the-science techniques

This is not a request for proposals. The State of Wyoming is not obligated to award any contract.
