*RE: Closure to Notice of Violation and Order, Docket  
Number 4297-08*

Dear Ms. Hageman:

On July 7, 2008 the Department of Environmental Quality (DEQ) issued a Notice of Violation and Order (NOV), Docket Number **4297-08**, for failing to submit the required application for a WYPDES Confined Animal Feeding Operation (CAFO) permit and the development and implementation of a Nutrient Management Plan (NMP) as required under Wyoming Water Quality Rules and Regulations (WQRR).

The DEQ has received information from you indicating the facility is no longer operating as a dairy cattle facility and all operations associated with this dairy cattle facility have ceased. To resolve this NOV the DEQ will conduct a final inspection of the facility to verify this information is valid and no further environmental concerns regarding previous violations are noted. If the inspection verifies this information to be correct then the NOV will be considered resolved and closed. If environmental concerns are noted they will need to be addressed before the NOV can be resolved.

DEQ will be contacting you in the near future with a proposed date for the follow up inspection.

Thank you for your time in this matter.

Sincerely

Kevin M. Wells  
WYPDES Compliance & Enforcement Program Coordinator
