

The following topics are considered core topics that are essential for operators to understand well. Please ensure that you take a minimum of eight (8) hours of training for each certificate renewal that cover the topics below, beginning with 2015 certificate renewals.

- Backflow prevention, hazard determination
- Developing O&M Manuals/documentation/record keeping
- Disinfection
- Distribution System operation and maintenance and directional line flushing
- Collection System operation and maintenance
- Instrumentation/SCADA/meters
- Pumps (either general or specific to the area of your license)
- Regulatory sampling/reporting/timing
- Regulatory updates (SDWA, CWA, Chapters 5, 11, and 12)
- Wastewater Treatment Plant operation and maintenance
- Water Treatment Plant operation and maintenance

You may **not** apply defensive driving training hours towards certificate renewals.

One CEU (Continuing Education Unit) is equal to 10 hours of training.

Please submit all college transcripts to DEQ for approval.
