Re: January 30, 2014 - Pavillion Working Group Data Request

Dear Mr. Parfitt:

The Wyoming State Engineer's Office (SEO) received your above referenced data request on February 7, 2014. In accordance with your request, this letter and attached diskette provides you with any records in our office pertaining to the area of interest. The area of interest was defined by Ms. Deborah Harris in an email to me on February 11, and corresponds to the map attached to her email. According to her email, the map is of the "cistern area boundary," and appears to correspond with Township 3 North, Range 2 East, Sections 1, 2, 3, 4, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 20, 21, 22, 23, and 24, and also Township 3 North, Range 3 East, Sections, 6, 7, 18, and 19 all of the Wind River Meridian.

The attached diskette contains our permit records as well as any microfilm correspondence pertaining to those permit records within the previously mentioned geographic area. The diskette also contains a Microsoft Excel table which displays groundwater permit records within this area. The table may be beneficial to correlate legal locations with applicable SEO permits. If you have any questions regarding these data, or if you require any additional assistance, feel free to contact me at 777-2974 or by email at george.moser@wyo.gov.

Respectfully Submitted,

George Moser
Ground Water Division
Wyoming State Engineer's Office
