

Indicate Pollution Types below

Indicate amount(s) below

How many gallons of water are being used on average at this facility?

How much energy is being used on average at this facility?

How much solid waste is being disposed of on average at this facility?

What recycling efforts are being performed at this facility?

List hazardous chemicals that are being used at this facility and their purpose of use.

What effects does this facility pose to Air Quality?

CO2 Y / N

NOx Y / N

VOC
Volatile Organic Compound Y / N

SOx Y / N

PM
Particulate Matter Y / N

Toxics Y / N

Nutrients Y / N

What effects does this facility pose to Water Quality?

Contaminants in Storm Water Y / N

TSS
Total Suspended Solids Y / N

Pathogens Y / N

What efforts are already in place to prevent pollution?

What types of electronics are being disposed of at this facility?

How are electronics being disposed of by this facility?

What information is already in place for waste streams?

What non-hazardous materials are being used?

Amount of Natural Gas being utilized monthly on average?

Vehicle Miles driven

| | | | |
|-------------------------------------|-------------|-------|--|
| Green Energy being utilized? | Wind | Y / N | |
| | Solar | Y / N | |
| | Geo-Thermal | Y / N | |
| | Bio-Diesel | Y / N | |
| | CNG | Y / N | |
